Functions of the Institute

4.—(1) The functions of the Institute shall be—

- (a) to carry out, and promote the carrying out of, medical research designed to alleviate disease among the people of Tanzania;
- (b) to carry out, and promote the carrying out of research into various aspects of local traditional medical practices for the purpose of facilitating the development and application of herbal medicine;
- (c) in co-operation with the Government or any person or body of persons, to promote, or provide facilities for, the training of local personnel for carrying out scientific research into medical problems;
- (d) to monitor, control and co-ordinate medical research carried out within Tanzania, or elsewhere on behalf of or for the benefit of the Government of Tanzania, and to evaluate the findings of that research;
- (e) to establish a system for the registration of, and to register, the findings of medical research carried out within Tanzania, and promote the practical application of those findings for the purposes of improving or advancing the health and general welfare of the people of Tanzania;
- (f) to establish and operate a system of documentation and dissemination of information on any aspect of the medical research carried out by or on behalf of the Institute;
- (g) to control and manage the affairs of Centres vested in the Institute by section 6 (1);
- (h) to assume responsibility for the control and management of any other Centres which may be established by the Institute or vested in the Institute under section 6 (2) or any other written law;

- (i) to do any thing which may be necessary to uphold and support the credit of the Institute and of its research findings, to obtain and justify public confidence, to avert or minimize any loss to the Institute and to facilitate the proper and efficient performance of its functions.
- (2) In particular, but without prejudice to the generality of subsection (1), the Institute may—
- (a) undertake, either alone or in association with any person or body of persons within or outside Tanzania, the establishment, equipment and management, on a zonal or other basis, of Centres within Tanzania for the performance of any of its functions;
 - (b) carry out, and promote the carrying out of, research and investigation into the causes, and the ways of controlling and preventing the occurrence in Tanzania of particular diseases or a category of them, including—
 - (i) bacterial, viral, rickettsial, helminthic or protozoal, infective and parasitic diseases; and
 - (ii) non-infective diseases of the mental, nutritional, neoplastic, haematological, degenerative or other categories;
 - (c) in co-operation with the Government or any person or body of persons, carry out and promote the carrying out of, basic, applied and operational research designated to provide effective measures for the control of diseases endemic in Tanzania;
 - (d) in co-operation with the Government or any person or body of persons within or outside Tanzania, establish in Tanzania a library for reference by medical scientists and a medical museum.
- (3) For the purposes of the better performance of its functions the Institute shall establish and maintain a system of collaboration, consultation and co-operation with the Tanzania National Scientific Research Council established by the Tanzania National Scientific Research Council Act, 1968, and with any other person or body of persons established by or under any written law and having functions related to those specified in subsection (1) or (2) or which relate to medical or scientific research or to scientific developments generally.

5.—(1) The control and management of the Centres specified in the First Schedule to this Act is hereby vested in the Institute.

(2) The Minister may, by order published in the *Gazette*, amend, add to, vary or replace the names of and the centres specified in the First Schedule to this Act.

(3) The Minister may, after consultation with the Council, by order in the *Gazette*, declare any hospital, health centre, dispensary or other medical establishment or part of it, where medical research is conducted, or in which it is intended to conduct medical research, sponsored by

Vesting of
Centres
and provi-
sions relating
to land

or on behalf of the Government, to be a Centre for the purposes of this Act, and vest in the Institute the control and management of that Centre.

(4) The Institute shall be granted a right of occupancy over the land over which a Centre exists, or is established, upon such terms and conditions as the President may approve, subject to subsections (5) and (6).

(5) Until a right of occupancy is granted it shall be lawful for the Institute to exercise in relation to the land over which a Centre exists, or is established, all the right necessary for the performance of its functions which the owner of a right of occupancy may lawfully exercise over land comprised in a right of occupancy granted to him, and the fact that no right of occupancy has been granted to the Institute shall not affect the validity of anything done or omitted *bona fide* by any person in the execution or purported execution of his duties under this Act.

(6) No fee or duty shall be charged or payable in respect of the issue to the Institute of a certificate in respect of a right of occupancy granted in accordance with this section.

10.—(1) Every person engaged or intending to engage, in medical research within the United Republic shall, at his own expense furnish to the Institute information relating to that research and shall make available to the Institute copies of any relevant records or findings in such form and within such periods as may be prescribed.

Information
on medical
research to
be furnished
to the Insti-
tute

(2) Any person who contravenes or fails to comply with subsection (1) shall be guilty of an offence and shall be liable on conviction to a fine not exceeding ten thousand shillings, but no person shall be prosecuted for any offence under this section within six months after the commencement of this Act.

(3) Notwithstanding subsection (1), the Institute may enter into agreements with firms or organizations engaged in medical, nutritional or other allied scientific research, within or outside Tanzania, for the purposes of establishing a system of exchanging information relating to medical, nutritional or other allied specific research.

Information on diseases by hospitals, health centres etc.

11. For the purposes of the proper performance of its functions under this Act, the Institute may require in writing any hospital, health centre, dispensary or other medical establishment or a category of them to furnish to it such information relating to such disease or diseases as the Institute may specify.

Institute may call for information on medical research

12.—(1) The Institute may require in writing any person or body of persons engaged in medical or other allied scientific research within Tanzania to furnish to it such information relating to medical or other allied scientific research as the Institute may specify.

(2) Every person or body of persons required to furnish information under subsection (1) shall comply with the requirement and any person or body of persons which refuses or fails to comply with that requirement shall be guilty of an offence and shall be liable on conviction to a fine not exceeding fifteen thousand shillings.

Provisions relating to discoveries

13.—(1) Where as a result of any research carried out by or on behalf of the Institute anything is discovered, the discovery shall become the property of the Institute.

(2) For the purposes of the commercial exploitation of any discovery which the Institute considers important for the alleviation, prevention or cure of diseases or for the betterment or improvement of the health of persons, the Institute may arrange with any person or body of persons to buy, sell, take or grant patent rights in the discovery, subject to terms approved by the Council.

(3) Every discovery made as a result of medical or other allied scientific research carried out under this Act shall be registered by the Institute in such form and upon such conditions as the Minister may, by regulations made under this Act, prescribe.

(4) The Institute may, with the prior approval of the Minister, grant to any person who makes a discovery which the Institute considers significant or who materially assists or contributes to the making of that discovery, such reward as may be approved by the Council.

Co-ordination of researches carried out outside Tanzania

14.—(1) Whenever any person desires to sponsor any medical research project to be carried out outside Tanzania, or to make payments for the purpose of participating in a medical research project outside Tanzania, he shall first submit his proposals in that behalf in writing to the Institute.

(2) Upon receipt of proposals submitted to it pursuant to subsection (1), the Institute shall hold consultations with the person who submitted the proposals, and on completion of those consultations the

Institute shall make such decision in relation to the proposals as will, in the opinion of the Institute, serve the best interests of medical or other allied scientific research in Tanzania.

(3) Every decision made by the Institute under subsection (2) shall be binding upon every person affected by it, but if any of those persons is aggrieved by the decision of the Institute he may appeal to the Minister against it, and the decision of the Minister on the matter shall be final.

(4) For the purposes of giving effect to the purposes and provisions of this section the Institute may, with the approval of the Minister, issue guidelines specifying the conditions which should be observed in making proposals and also specifying matters which the Institute shall take into consideration in making any decision under this section.

(5) The Minister may, by directions in writing under his hand, exempt any person or body of persons or any category of persons from the provisions of subsection (1).

15.—(1) The Minister may, after consultation with the Council, make regulations necessary to give effect to the purposes and provisions of this Act. Power of Minister to make regulations

(2) Without prejudice to the generality of the power conferred by subsection (1), the Minister may make regulations—

- (a) requiring persons or bodies of persons, or a category of them, specified in the regulations, engaged in medical or other allied research to furnish to the Institute information relating to any aspect of their activities;
- (b) prescribing the form and manner in which, and the period within which, any information required to be furnished or made available to the Institute under this Act shall be furnished or made available to the Institute.
- (c) prescribing the form in which and the procedure by which proposals shall be made to the Institute for the sponsoring of medical research to be carried out outside Tanzania;
- (d) prescribing or regulating any other thing which is under this Act required or permitted to be prescribed or regulated.

(3) Regulations made under this section shall be published in the *Gazette*.

The international guidelines for biomedical, socio-economic and cultural research involving human subjects, which are developed and updated by the World Health Organization (WHO) jointly with the Council for International Organizations of Medical Sciences (CIOMS), will be adapted for implementation in this country

2. Before implementing research, principal investigators shall at their own costs submit fully developed proposals for review for either national ethics clearance by the National Institute for Medical Research or institutional ethics clearance by a mandated national institution which will host the research. Researchers contravening or failing to comply with this regulation shall be guilty of an offence and shall be liable on conviction to a fine.

3. The proposal shall show the relevant expertise(s) of the investigator(s), collaborating institutions including the funding agency if already known or the one(s) to be requested for funding, research problem or hypothesis, rationale, objectives, methods, budget, and its justification.

4. For processing a research proposal for national ethics clearance, the National Institute for Medical Research charges a fee which may be changed from time to time.

5. Institutions located in the United Republic of Tanzania and regularly hosting health related research, may apply to the National Institute for Medical Research to be mandated to review proposals for institutional ethics clearance. However, the mandate will only apply to the researches to be hosted by the institution.

6. The applications for authority to review proposals for institutional ethics clearance, shall list the names of the committee members, and show for each member professional qualifications, research areas of interest, and publications in the last five years. Memberships of the institutional ethics committee shall be reviewed every three years, and the National Institute for Medical Research notified accordingly. Where feasible the community served by the institution shall be represented on the committee by at least two enlightened and respected members conversant with national culture and laws.

7. Researches given national ethics clearance are automatically registered on the National Health Research Database. The national institutions delegated to grant institutional ethics clearance, shall submit to the National Institute for Medical Research, copies of all proposals granted this clearance to facilitate their registration on the National Health Research Database.

8. In order to facilitate updating of the National Health Research Database, principal investigators and the institutions granting institutional ethics clearance shall at their own costs file to the National Institute for Medical Research quarterly and final reports as well as publications arising from the research. Researchers contravening or failing to comply with this regulation, shall be guilty of an offence and shall be liable on conviction to a fine.

9. Institutions granting institutional ethics clearance should see to it that researches are implemented as described in the proposal, and that any major changes are notified to the National Institute for Medical Research.

10. In addition to obtaining either national or institutional ethics clearance for the intended research, each researcher who is not *bona fide* resident of the United Republic of Tanzania, shall apply using prescribed forms for a research permit from the Tanzania Commission for Science and Technology (COSTECH). The Commission charges fees for processing the permit.
